POTENTIAL PERILOUS INVESTING PHRASES

On Wall Street, just because an investment-related phrase is uttered frequently doesn't make it true. In fact, while they may sound sensible, these phrases can prove costly in real-world investing - especially in the midst of a bear market. Living through multiple stock market downdrafts and primary bear markets over decades seared this lesson into Jeff's market memory. Realizing their potential for steering you down the wrong investment path, this class will address many of them and show why you don't want to accept these sayings as infallible investment facts. As always, you'll want to consult with your investment professional, financial advisor, and accountant when formulating your own investing and financial plan. Instructor: *Jeffrey Weiss, CMT*
